Experience

CafeVist@ Pvt Ltd

Remote

Web Development Intern | Aug 2024 – Nov 2024

- Developed the **DreamTales landing page** using React.js with responsive layout, animations, and advanced CSS styling.
- Built the **CafeVista admin panel** with reusable components and **state management** using **React.js** and Tailwind CSS.

Devsiom Technologies

Remote

Web Developer | Feb 2024 – Mar 2024

- Developed homepage sections for the company website using component-based React architecture.
- Designed an animated navbar and implemented responsive layouts using Flexbox and media queries.

Devsiom Technologies

Remote

Web Development Intern | Sep 2023 – Jan 2024

- Built a responsive **admin dashboard for Pranzo**, using HTML, CSS, JS, and **Chart.js** for interactive data visualization.
- Created 60+ internationalized forms for a Document Generator Web App using Bootstrap and **jQuery**, with built-in date validation and **localization support**.
- Developed an **Inventory Management System** front end with **REST API** integration and offline **local storage** support.

Education

Air University, Islamabad

Bachelor of Science in Software Engineering | CGPA: **3.32** / 4.0

2020 - 2024

Joint Staff Public School and College

FSC. Pre-Engineering

2018 - 2020

Personal Projects

Fix It Now

Developed FixItNow, a home services and maintenance web application using the **MERN** stack. The platform enables users to book and manage various home services with features like **service listings**, **real-time updates**, **user choice payment selection**, **secure payments**, and **responsive design**.

CatsCuban

Developed a cat-focused website that allows users to **buy cats**, **book time with them**, **report or find lost cats**, and **purchase cat food and accessories**. The platform features two main modules: a **Cat Shelter** for adoption and visits, and a **Cat Store** for pet essentials.

Airbnb Landing Page

Recreated Airbnb's landing page using HTML5 and CSS3, meticulously replicating the design and functionality to enhance coding proficiency and attention to detail. Efficiently utilized **Flexbox** for **responsive layouts** and precise alignment.
